AUSPRINT Driver Installation

Installation Type : WIFI - MacOS

IMPORTANT : Ensure printer is plugged into power and switched on. Ensure printer is loaded with labels Ensure light on printer is a solid green colour - not flashing.

IMPORTANT : Before continuing, please ensure that you reset your printer to factory settings by pressing the top Feed/LED button 4 times in a row to trigger the WIFI Hotspot. Once this is done, proceed.

Step 1. Search 'AUSPRINT' on Mac App Store and download it.

Step 2. Open the AUSPRINT app and press the 'Settings icon.
